## PROFILE

I am a prefinal year student at Kalinga Institute of Industrial Technology. My area of interest includes Web development , Machine Learning ,deep learning etc. I have strong foundation in C , C++ , Java ,Python etc. I am always curious to learn and explore new and latest technologies. Eager to contribute and learn in a dynamic and collaborative organizational environment.

---

## SKILLS

C	Machine Learning	HTML
C++	Web Development	CSS
Python	MySql	JavaScript

---

## PROJECTS

### PortFolio Website

Designed and developed a personal portfolio website using HTML, CSS, and JavaScript. The website showcases my skills, projects, and achievements, providing an interactive platform for potential employers and clients to explore my work.

### Amazon Clone

Developed a replica of the e-Commerce giant Amazon using HTML and CSS. The project involved creating a user-friendly interface, product listings, and mimic the Amazon shopping experience.

### Movie Recommender System

Developed and deployed a Machine Learning-based Movie Recommender System using Python libraries and integrated it into a web application using Streamlit. The system personalized movie recommendations for users based on their preferences and viewing history.
